Is your agency (please check all that apply):

- Government Funded
- Nonprofit 501(c)3
- Nonprofit with government contracts
- Nonprofit pending 501(c)3 status
- Private
- Municipal

Number of animals cared for annually:

Dogs:

Cats:

Other:

How many animals do you take in per month (average)?

What percentage of animals are successfully adopted (excluding transfers and owner returns)?

Number of adoptions you did last year (excluding transfers and owner returns):

Number of returns:

Number transferred to another agency:

Number euthanized:

If your facility performs euthanasia, please check the type done:

- lethal injection gas
 other, please explain

What percentage of animals are euthanized (average)?

Using the Asilomar Accords (www.asilomaraccords.org) definitions, please report your euthanasia statistics.

Percentage of **healthy** animals euthanized:

Healthy: The term "healthy" means and includes all dogs and cats eight weeks of age or older that, at or subsequent to the time the animal is taken into possession, have manifested no sign of a behavioral or temperamental characteristic that could pose a health or safety risk or otherwise make the animal unsuitable for placement as a pet, and have manifested no sign of disease, injury, a congenital or hereditary condition that adversely affects the health of the animal or that is likely to adversely affect the animal's health in the future.

Percentage of **treatable - rehabilitatable** animals euthanized:

Treatable - Rehabilitatable: The term "rehabilitatable" means and includes all dogs and cats who are not "healthy," but who are likely to become "healthy," if given medical, foster, behavioral, or other care equivalent to the care typically provided to pets by reasonable and caring pet owners/guardians in the community.

Percentage of **treatable - manageable** animals euthanized:

Treatable - Manageable: The term "manageable" means and includes all dogs and cats who are not "healthy" and who are not likely to become "healthy," regardless of the care provided; but who would likely maintain a satisfactory quality of life, if given medical, foster, behavioral, or other care, including long-term care, equivalent to the care typically provided to pets by reasonable and caring owners/guardians in the community; provided, however, that the term "manageable" does not include any dog or cat who is determined to pose a significant risk to human health or safety or to the health or safety of other animals.

Percentage of **unhealthy and untreatable** animals euthanized:

Unhealthy and Untreatable: The term "unhealthy and untreatable" means and includes all dogs and cats who, at or subsequent to the time they are taken into possession,

- 1) Have a behavioral or temperamental characteristic that poses a health or safety risk or otherwise makes the animal unsuitable for placement as a pet, and are not likely to become "healthy" or "treatable" even if provided the care typically provided to pets by reasonable and caring pet owners/guardians in the community; or
- 2) Are suffering from a disease, injury, or congenital or hereditary condition that adversely affects the animal's health or is likely to adversely affect the animal's health in the future, and are not likely to become "healthy" or "treatable" even if provided the care typically provided to pets by reasonable and caring pet owners/guardians in the community; or
- 3) Are under the age of eight weeks and are not likely to become "healthy" or "treatable," even if provided the care typically provided to pets by reasonable and caring pet owners/guardians in the community.

How do you accept animals from the public (check all that apply)?

- walk-in
- by appointment
- only when space is available

How many dogs can your facility hold?

How many cats can your facility hold?
